## PROFESSIONAL SUMMARY

- DevOps Engineer with 2+ years of experience in AWS (EC2, S3, VPC), Docker, CI/CD (Jenkins, GitHub Actions), and infrastructure automation (Terraform, Ansible). Boosted deployment speed by 40% and reduced costs by 30%. Holds a Bachelor's in Cybersecurity and Networking, plus Cisco and Terraform Associate certifications. Strong focus on security with practical experience in vulnerability assessment using OWASP standards and Nessus.

## EXPERIENCE

- **Algebra Systems** September 2022 – March 2025  
DevOps Engineer Tunisia, Tunisia
  - Reduced CI/CD pipeline execution time by 40% (from 15min to 9min) by optimizing Jenkins workflows and parallelizing GitHub Actions jobs
  - Designed and managed scalable AWS cloud infrastructure, enhancing reliability and cost-efficiency.
  - Automated provisioning and deployment with Ansible, Terraform, and Bash, reducing errors and saving time.
  - Improved application security by identifying vulnerabilities early using OWASP ZAP, Snyk, Acunetix, Fortify, and Veracode
  - Integrated monitoring tools (Prometheus, Grafana, Zabbix, CloudWatch) for proactive issue detection and performance optimization.
  - Managed version control and code quality with Git, SonarQube, and agile branching strategies.
  - Implemented backup and disaster recovery strategies to ensure business continuity and minimize downtime.
  - Configured and segmented the company network using VLANs across routers and switches to improve performance and enhance security.
- **Tunis Stock Exchange** February 2022 – June 2022  
Intern - End of study project Tunisia, Tunisia
  - Developed a stock market data broadcaster using WebSockets and UDP for real-time, low-latency data transmission on a high-performance Linux platform.
- **Progress Engineering** July 2021 – August 2021  
Internship Tunisia, Tunisia
  - Developed a fully functional email client using SMTP, IMAP, Java, and JavaFX, enabling users to send, receive, and manage emails through an intuitive desktop interface.
- **Tunisia Telecom** January 2020 – February 2020  
Internship Tunisia, Tunisia
  - Installed new subscriber connections and deployed fiber optic lines while analyzing and assessing various network architectures to ensure optimal performance and reliable connectivity.

## EDUCATION

- **Hochschule Schmalkalden** April 2025 - Present  
Study Abroad Program in Computer Science Schmalkalden, Germany
- **TEK-UP University** September 2022 - November 2025 (Expected)  
Engineering Degree in Computer Science Tunisia, Tunisia
- **ISSET'COM University** September 2019 - August 2022  
Bachelor's degree in information and communication science and technology, Network Security Tunisia, Tunisia

## PERSONAL PROJECTS

- **AWS DevOps Pipeline:** Built a CI/CD pipeline using Jenkins (Master-Worker) on AWS EC2, with Nginx as a secure reverse proxy. Integrated GitHub Webhooks for automated builds and deployed a Python app to AWS Elastic Beanstalk, focusing on scalability and automation.
- **Automated EC2 Static Website Deployment:** Set up and hosted a static website on multiple EC2 instances using Ansible, with secure SSH communication for streamlined deployment and configuration.
- **User Authentication with Keycloak and Azure AD:** Integrated Keycloak and Azure AD for secure user authentication and access control.
- **CI/CD Pipeline for APK Build and Nexus :** Developed a CI/CD pipeline that builds an APK and stores it in a Nexus repository, automating the process to streamline Android app delivery and version management.
- **AI-Powered Learning App for Kids:** Developed a mobile application using artificial intelligence (AI) and TensorFlow Lite to accurately recognize fruits, animals, objects, and superheroes, designed to provide an engaging and educational experience for children through visual learning.

## TECHNICAL SKILLS

---

### Cloud & DevOps

AWS (EC2, S3, Route 53, IAM, CloudFormation), Terraform, Ansible, Kubernetes, Docker, Jenkins, GitHub Actions

### Security & Compliance

OWASP ZAP, Fortify, Acunetix, Nessus

### Monitoring & Observability

Prometheus, Grafana, CloudWatch, Zabbix, ELK Stack

### Networking & Infrastructure

TCP/IP, DNS, HTTP/HTTPS, VPN, AWS VPC, Load Balancers (ALB/NLB), Wireshark, Nmap, Cisco Basics

### Programming & Scripting

Python, Java, Dart (Flutter), JavaScript, Bash

### Databases & Storage

MySQL, PostgreSQL, MongoDB, RDS, S3

## LANGUAGES

---

- \* **Arabic:** Native
- \* **English:** B2(Upper-Intermediate)
- \* **French:** B2(Upper-Intermediate)
- \* **German:** A2(Elementary)

## CERTIFICATIONS

---

- \* **Certified Kubernetes Application Developer (CKAD) | Expected 2025**
- \* **Terraform Associate (003)**
- \* **CCNA 1 , 2 and 3**
